

# ISUZU D-MAX TIPPER CONVERSION

# RAISE YOUR WORK RATE

Designed to meet the needs of professionals looking for a robust and practical conversion that's capable off-road. The tipper conversion combines all the essential workhorse features of the Utility Extended Cab with the practicality of a durable and lightweight tipper body – a great solution for our hard-working customers.

## SPECIFICATION:

**The tipper conversion incorporates the following equipment:**

- 18mm alloy 'Tippadek' with heavy duty interlocking floor system
- 300mm high alloy anodised drop sideboards with recessed spring catches
- 300mm high alloy anodised tailboard with 2-way hinge assembly and rubber stops
- Heavy duty removable corner posts
- Heavy duty underfloor tie points
- Electro-hydraulic power pack with thermoplastic oil reservoir
- Direct lift underfloor ram
- Fully galvanised steel subframes and tipping gear
- Integral body prop
- Hose burst safety valve
- Rubber moulded body rests
- Wander lead control complete with 'body up' warning light
- Dual tone audible warning buzzer
- Black coated tubular gantry with cab protection infill panel and 'Isuzu' logo.
- Ladder stops on gantry crossbar
- Rear lighting shroud fitted with recessed regulation light clusters
- Safety decals
- Colour instruction manual

The tipper conversion is available on used Utility Extended Cabs only and is fitted post registration.

# PRACTICAL. DURABLE. CAPABLE.

## LOADS OF SPACE

The load bed is very accommodating, measuring 1,977mm long by 1,800mm wide, and the rugged 'Tippadek' bed is constructed using 18mm thick interlocking alloy floor panels. Loads are kept secure thanks to 300mm high sideboards and tailboard, which are made from lightweight alloy.

The tailboard opens to 180° and features a 2-way hinge assembly meaning it can be opened from both the top and bottom.

### Plus:

- Rubber buffer stops protect the body from the tailboard
- Heavy-duty underfloor tie points secure loads
- Recessed spring latches on the sideboards avoid catching on objects
- Removable corner posts provide an open platform

## LOADS OF PROTECTION

A black powder-coated tubular gantry shields the cab and as the Isuzu D-Max Utility has a heated rear screen as standard, the protection panel has been finished with a laser cut square design to ensure clear visibility when reversing.

## LOADS OF STRENGTH

An electro-hydraulic power pack activated by a wander lead control lifts the tipper body.

There's also an integral body prop and hose burst safety valve to stop the body from falling unexpectedly.

The tipping gear and subframe have been fully galvanised for protection and rubber moulded body rests prevent the tipper body striking the frame when the vehicle is in motion.

# THE AWARD WINNING ISUZU D-MAX BUSINESS RANGE

---

Practical, reliable and tough; the perfect choice for when the emphasis is on getting the job done.

Powered by a Euro 6 turbo diesel engine and with the choice of three cab configurations, you can comfortably get through the day – day after day. And if you think all-wheel drive is a luxury you don't need, we have a 4x2 option that works for you.

It's for professionals who need a workhorse, not a show pony.

#Over 40 MPG figure applies to all models. MPG figures are official EU test figures for comparative purposes and may not reflect real driving results. Official fuel figures for the Isuzu D-Max Business manual range in MPG (l/100km): Urban 37.2-38.7 (7.6-7.3); Extra Urban 42.8-50.4 (6.6-5.6); Combined 40.4-45.6 (7.0-6.2). CO<sub>2</sub> Emissions 163-183 g/km. For full details please contact your local Isuzu dealer or visit [isuzu.co.uk](http://isuzu.co.uk) \*3.5 tonne towing applies to all 4x4 models. \*\*125,000 miles/5 year (whichever comes first) warranty applies to all new Isuzu D-Max models. Terms and conditions apply. Visit [isuzu.co.uk](http://isuzu.co.uk)

# THE PRACTICAL SOLUTION

---

## **NO ADBLUE**

---

Unlike other diesel pick-ups that require the addition of AdBlue, the Isuzu engine is capable of over 40.4 MPG combined, whilst meeting Euro 6 emissions standards without the need for AdBlue. This vehicle not only saves you money, but is the perfect pick-up for your business.

**3.5  
TONNES  
TOWING  
CAPACITY**

## **PULLING, PAYLOAD & TRAILER SWAY CONTROL**

---

With a maximum payload up to 1,141kg on the Double Cab variant, and a 3.5 tonne towing capacity\* the Isuzu D-Max is no burden to your working day. On all 4x4 models, trailer sway control uses sensors to detect the onset of trailer swing and reduces vehicle speed if sway is identified.

**NO  
LIMITS**

## **NO SPEED LIMITS**

---

Compared to some heavier pick-ups that exceed the legal 2,040kgs, the Isuzu D-Max Double Cab which has an unladen weight of 1,909kg is not affected by commercial vehicle speed limits (10mph slower on both dual and single carriageways). With this in mind, the Isuzu range continues to offer all of the powers and capabilities of a dual purpose vehicle, without the restrictions.

**NO  
ONE  
PRIORITY**

## **SAFETY**

---

At Isuzu, safety is our priority and the Isuzu D-Max range reaps the benefits of this policy. The tough cabin structure, front, side and curtain airbag, pre-tensioning seatbelts and ISOFIX are all included to offer even more protection. All Isuzu models come with LED daytime running lights which improve light distribution and visibility.

## **BRAKE OVERRIDE SYSTEM**

---

Designed to work if the accelerator and brake pedals are accidentally pressed simultaneously. Engine power will be cut and only the brakes will be applied instead.

## **HILL START ASSIST & HILL DESCENT CONTROL**

---

Stay in control with two systems that help negotiate hills smoothly and safely. The Hill Start Assist function applies the brakes for 1 to 2 seconds while the driver moves from the brake to the accelerator pedal, preventing the pick-up from rolling back on a hill start. Hill Descent Control is a system that controls the brakes to maintain a consistent, low speed when descending steep, slippery slopes, allowing the driver to concentrate on steering.

## **5 YEARS PEACE OF MIND**

---

All Isuzu D-Max models benefit from a 5 year/125,000 mile warranty and 5 year roadside assistance across UK and Europe.

# 4x2 SINGLE CAB

---

The Isuzu D-Max 4x2 Single Cab comes with the following specification.

## EXTERIOR

- Projector Headlights
- LED Daytime Running Lights
- Grey Radiator Grille
- Black Door Mirrors and Door Handles

## COMFORT & CONVENIENCE
